

## Wiring Diagram of Rich Fi ECU for SUZUKI Address (without O<sub>2</sub> Sensor)

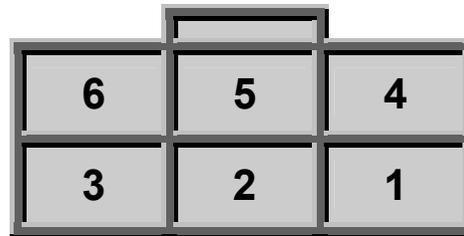

## Wiring Diagram of Rich Fi ECU for SUZUKI Address / Music (with O<sub>2</sub> Sensor)

## Wiring Diagram of Rich Fi ECU for SUZUKI Tekken / V125S

## Main Connector Pin Number Mapping

## Main Connector Signal Definition

| Pin No. | Signal Description                      | Wire Color |
|---------|---|------------|
| 1       | TPS (Throttle Position Sensor) Input    | White      |
| 2       | Power Ground                            | Black      |
| 3       | Fuel Injection Input (from Factory ECU) | Blue       |
| 4       | CPS (Crankshaft Position Sensor) Input  | Orange     |
| 5       | +12V Power                              | Red        |
| 6       | Fuel Injection Output (to DCP)          | Yellow     |
